Coast Guard, DOT § 169.5

(4) Turning the tanker 90 degrees, assuming a free-swinging rudder and a speed of 6 knots, within the same distance (advance and transfer) that it could turn itself with a hard-over rudder.

EFFECTIVE DATE NOTE: At 59 FR 54519, Nov. 1, 1994, §168.50 was amended by suspending paragraph (b)(2), effective November 17, 1994.

§168.60 Pre-escort conference.

- (a) Before commencing an escort transit, the tanker master shall confer, by radio or in person, with the tanker pilot and the masters of the escort vessels regarding the escort operation.
- (b) The purpose of the pre-escort conference is for all parties to plan and discuss particulars of the escort transit.
- (c) At a minimum, the following topics must be addressed during the preescort conference:
- (1) The destination, route, planned speed, other vessel traffic, anticipated weather, tide, and sea conditions, and other navigational considerations;
- (2) The type and operational status of communication, towing, steering, and propulsion equipment on the tanker and escort vessels;
- (3) The relative positioning and reaction time for the escort vessels to move into assist positions, including, if appropriate, pre-tethering the escort vessels at crucial points along the route;
- (4) The preparations required on the tanker and escort vessels, and the methods employed in making an emergency towline connection, including stationing of deck crews, preparation of messenger lines, bridles, and other towing gear, and energizing appropriate deck equipment;
- (5) The manner in which an emergency towline connection would be made (which escort vessel will respond, how messengers and towlines will be passed, etc.);
- (6) Other relevant information provided by the tanker master, pilot or escort vessel masters.

Subpart A—General

§169.1 What is the purpose of this subpart?

This subpart prescribes the requirements for mandatory ship reporting systems. Ship reporting systems are used to provide, gather, or exchange information through radio reports. The information is used to provide data for many purposes including, but not limited to: navigation safety, environmental protection, vessel traffic services, search and rescue, weather forecasting and prevention of marine pollution.

§169.5 What terms are defined?

(a) Mandatory ship reporting system means a ship reporting system that requires the participation of specified vessels or classes of vessels, and that is established by a Government or Governments after adoption of a proposed system by the International Maritime Organization (IMO) as complying with all requirements of regulation V/8-1 of
